### Additional Comments

Center is being placed in provisional status today due to critical violations observed. Please correct hot water issue by 2/13/25. A follow up visit will be conducted by that date. Call 919-500-6269 when resolved.

Water fountains are not currently connected to the water supply. PIC said they are not used. If these will not be used any longer, EHS recommends removing them entirely. These were not tested for lead during the last required lead testing window.
