Observations and Corrective Actions

- 5 15A NCAC 18A .2804 (k); Refrigerators in the second classroom are not in an approved food preparation area. Lunches, snacks, and other meals containing potentially hazardous foods shall be refrigerated at 45F or below and stored in the child care center kitchen or approved food preparation area. This food preparation area requires a handwash lavatory. After discussing with operator, this area would require a sink to meet the requirements. Moving the refrigerators to a new area is not practical. A shelf below microwaves would suffice for the countertop space requirement. This facility does not prepare food, only serves lunches brought from home. Please install a handwash lavatory in this area to meet requirements set out in this code by next inspection. No demerits assessed today.

- 21 15A NCAC 18A .2817 (a). One of the toilets in the bathroom is running when flushed. All toilet fixtures shall be kept clean and in good repair. Repair this toilet. No points taken.

- 37 15A NCAC 18A .2825 (a); Observed ceiling damage and peeling paint in the utility closet from a recent water leak. In child care centers, the walls and ceilings, including doors and windows, of all rooms and areas shall be kept clean, free of visible fungal growth, and in good repair. All walls and ceilings shall be free of peeling, flaking, chalking, or otherwise deteriorating paint. Repair ceiling in this area.
